

ABOUT ME

Senior Product Designer with 15+ years of experience designing complex digital products across fintech, SaaS, and regulated industries in Australia, Asia, and Europe. Proven expertise in designing transaction systems, investment platforms, and high-density financial dashboards where user trust and clarity are critical.

Specialize in translating financial complexity into user-clear interfaces. Equally comfortable defining product strategy and executing hands-on across design and implementation. Use AI-assisted workflows (Claude Code) to accelerate research and design delivery.

Core Strengths:

- Senior product and UX leadership
- Design systems and scalable workflows
- FinTech and SaaS platform design
- Compliance-aware design in regulated environments
- Financial product design and transaction systems
- Team leadership and mentoring
- Complex information architecture and dashboard design
- Hands-on implementation (HTML/CSS)

PROFESSIONAL EXPERIENCE

Alvaro Bezares Product & UX Design

Senior Product Designer / Design Advisor

Apr 2024 – Present

Provide senior product design and UX advisory support across B2B, SaaS, and fintech.

Work closely with founders, product leaders, and engineering teams to shape product direction, design scalable systems, and improve delivery quality. Focus on complex financial workflows, system design, and translating strategy into buildable solutions.

Recent initiatives include introducing AI-assisted workflows to accelerate research synthesis, prototyping, and design-to-dev handoff, enabling teams to deliver ambitious fintech products with less friction.

Lead Product Designer

Bet Technology | Bookmaking & Entertainment Tech

Jan 2023 – Mar 2024

Led senior product design for multi-platform sportsbook and betting SaaS serving 100K+ users. Owned UX and UI direction end-to-end across web, mobile, and native app platforms.

Key Responsibilities & Achievements:

- Defined product strategy and design direction across 15+ features
- Designed high-complexity features including account management, balance/earnings dashboards, transaction displays, and fund reconciliation
- Led UX for "Punters Club": shared group betting account requiring clear ownership models, contribution tracking, and earnings distribution across multiple users
 - Conducted user research to identify mental model challenges
 - Designed progressive disclosure pattern to answer core user questions
 - User testing validated approach; zero confusion; minimal support tickets
- Designed transaction display interfaces showing account activity, deposits, withdrawals, and reconciliation with external payment methods
- Built and scaled design systems across three platforms
 - Unified component library across web, iOS, Android
 - Reduced implementation time by ~60%
 - Documented patterns, behaviors, and edge cases for consistency
- Led design team; mentored junior designers; coordinated delivery with product and engineering

Results:

- ✓ Punters Club adoption exceeded projections by 18%
- ✓ Cross-platform design consistency improved user retention
- ✓ Design system reduced handoff friction and accelerated feature shipping
- ✓ All features shipped on schedule and within scope

CORE COMPETENCIES

PRODUCT DESIGN AND STRATEGY

- Define product vision and design direction
- User research, personas, and journey mapping
- Information architecture and user flows
- Wireframing, prototyping, and high-fidelity design
- Design validation and usability testing
- Product roadmap collaboration

DESIGN SYSTEMS & SCALABILITY

- Design system documentation and governance
- Component library architecture
- Design-to-code handoff documentation
- Multi-platform consistency
- Design token systems

LEADERSHIP & COLLABORATION

- Team leadership and mentoring
- Cross-functional stakeholder alignment
- Product and engineering partnership
- Design critique and feedback
- Compliance and legal collaboratV

SPECIALIZATIONS

- SaaS and B2B platform design
- Complex information architecture
- High-density dashboard design
- Financial systems and data visualization
- Compliance-aware design in regulated environments
- Group account features and complex interactions
- Cross-platform design (web, mobile, native)
- Design systems and scalability

Senior UX/UI Designer

Swordfish Media | Healthcare, Pharma & eLearning

Mar 2017 – Dec 2022

Senior designer delivering digital products in highly regulated healthcare and pharmaceutical environments. Designed and scaled websites, applications, and eLearning platforms for global brands.

Key Responsibilities & Achievements:

- Delivered digital products across healthcare and pharma
- Balanced compliance, accessibility, and UX in regulated contexts
- Introduced reusable design frameworks for multi-market rollouts
- Built component libraries and design standards
- Collaborated with clinical, legal, and compliance stakeholders
- Managed multiple projects while maintaining quality

Results:

- ✓ Reduced design-to-launch time by ~35%
- ✓ Improved consistency across global products
- ✓ Established scalable design standards for regulated environments

Senior Digital Designer

OneVue Limited | Financial Services Platform

Feb 2013 – Dec 2016

Led design for financial platform preparing for ASX listing, serving 50K+ investors.

Key Responsibilities & Achievements:

- Defined information architecture for financial dashboards
- Designed investor platform: accounts, portfolios, analytics
- Built design system for multi-product ecosystem
- Collaborated with compliance and product teams
- Worked with engineering to ensure build quality

Results:

- ✓ Supported successful ASX listing
- ✓ Reduced time-to-market by ~40%
- ✓ High usability with low support demand
- ✓ Established long-term design standards

Multimedia/Digital Designer

Intelligent Investor | Financial Research & Publishing

Aug 2011 – Aug 2012

Designed digital experiences for financial research platform.

Key Contributions:

- Simplified complex financial content using progressive disclosure
- Designed navigation for beginner and advanced users
- Improved mobile and desktop experience consistency

Results:

- ✓ Increased engagement and reduced bounce rates
- ✓ Improved clarity of financial information

Multimedia Designer

EducaLine | eLearning & Education

Jul 2006 – Aug 2010

Designed interactive eLearning products for education and corporate training.

Key Responsibilities:

- Built scalable learning experiences across multiple markets
- Collaborated with educators, developers, and localisation teams
- Developed reusable content frameworks

TOOLS & TECHNOLOGY

Design and prototyping:

Figma (advanced), Sketch, Adobe XD, InVision, Affinity

AI and automation:

AI-assisted research and prototyping, Claude, n8n, Make, Zapier

Front-end and delivery:

HTML, CSS, JavaScript (applied), React fundamentals, Git-based workflows

CMS and platforms:

AEM, WordPress, Drupal, Veeva, Hugo

Cloud and enterprise:

Salesforce, AWS, Azure, Google Analytics

Project management:

Jira, Asana, Trello, Sharepoint

INDUSTRIES & SELECTED CLIENTS

Finance & Investment:

OneVue, Intelligent Investor, Brightday, LoanInsights, YBR, Santander, AMP

Financial Transactions and Payments:

Bet Technology

Regulated Environments:

AbbVie, Novartis, Merck, Sanofi, Pfizer, AstraZeneca

EDUCATION

Illustration & Design Degree

ESDIR, Escuela Superior de Diseño de La Rioja | 2004 – 2006

Bachelor of Arts (B.A.)

ESDIR, Escuela Superior de Diseño de La Rioja | 2002 – 2004

LANGUAGES

English: Bilingual

Spanish: Native

French: Working proficiency
